

Dr. Ann Quinn - Peak Performance Specialist

“I have always searched for the little differences that make the big difference for athletes and executives and having used a form of Quantum Code Technology now for the past 15 years, I know the Heart Health+ App will help your health and heal the world. The research behind the Heart Health+ App speaks for itself.”

Pat Cash - Wimbledon Winner 1987

“I’ve used a form of Quantum Code technology for over 13 years now with great success, I recover better from training, have more energy whether playing with my kids on the guitar or on the tennis court and as far as injury recovery... well at 48 I’m still playing competition tennis. The Heart Health+ App can change the health and performance of everyone on the planet.”

Natalie Cook - 5 Time Olympian

“I’ve been using a form of Quantum Code Technology for over 14 years now and the benefits have been amazing, my concentration and focus is better, my energy levels are higher and I feel more balanced. For your body to perform at its best you need to eat the right foods, exercise and use Quantum Code Technology in the Heart Health+ App.”

Matt Pini - International Rugby Player

“I’ve been using a form of Quantum Code Technology since 2003 and the benefits I’ve found from using QCT my energy levels are more balanced throughout the day, my performance and recovery after cross fit training is incredible. I also can’t remember the last time I’ve been sick so I have found a benefit in that. No cold, no flu. It’s been fantastic. My whole family will now be healthier and happier now that we all use the Heart Health+ App.”

David Rhodes - Olympian

“I’ve been using a form of Quantum Code Technology since 2005. After the first week and a half, I found my energy levels had increased, my recovery rate in training started to kick in and my performance levels had improved. Thank you for inventing an amazing technology to enhance my performance on and off the sporting field.”

“The heart+ app lowers your stress and improves your heart health”

Dr. Beverly Rubik

“This Technology is vitally important for the future of humanity.”

Prof. Emeritus William Tiller,
former Chairman of the Department of
Materials Sciences, Stanford University

“These are Nobel Prize results.”

Ali Unal, Ph.D., Professor at
Imperial College London

“Something has been achieved that I’ve never seen before during my 53 years of material research.”

Prof. Rustum Roy, former Chairman
of the Department of
Materials Sciences,
Penn State University
