

Personal Water Vortex Unit Using Patented Water Technology

ONE08 Patented Water Products are unique in many important ways:

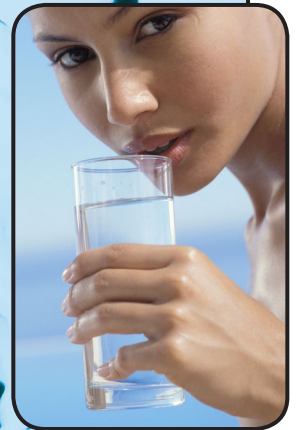

1. We use a specific magnetic configuration to provide a natural, non-mechanical vortex which creates a negative charge of at least -350 millivolts. This level of negative charge in the water eliminates any pathogenic microbes such as salmonella, E.coli, shigella, staphylococcus, and rickettsia. After the water has passed through our system, the -350 mv charge remains in the water indefinitely, improving health and performance in the human body.
2. Our Technology has been shown to support blood pH balancing, Oxidative Reduction Potential (ORP), cellular voltage, and reorganize the molecular structure of H₂O to its most natural and vital state.
3. Our Technology requires no power, no retrofitting and is guaranteed for the life of the system it is used within.

The ONE08 Patented Water Products provide additional benefits:

1. The ONE08 Water eliminates most solutes and gases (eg. carbon, carbon-dioxide, toxic sulphides, etc.) from the water and wine solutions.
2. The ONE08 Water enhances biological activity while significantly increasing nutrient uptake and assimilation in plants, animals and humans.
3. The ONE08 Water structure enhances the taste components in beverages, ie herbal teas, wine and milks, all while eliminating pathogens.
4. The ONE08 Water neutralizes the toxic effects of chlorine and other noxious chemicals from water sources.
5. The ONE08 Water potentiates the uptake of nutrients and essential minerals in liquids for all living species.

Benefits:

- *Eliminates Pathogens*
- *Healthier to Drink*
- *Tastes Better*
- *Increased Purity*
- *Energizing*
- *More Effective Hydration*
- *Very Low Cost*
- *Lifetime Guarantee*

Bottle-top and Under-sink Devices
